WASTE IS A CONCEPT.

WE ARE MATERIAL DESIGNERS
TURNING WOULD-BE PLASTIC
WASTE INTO SOMETHING
WORTHY OF CELEBRATION.

BATHROOM COLLECTION

The Bathroom Collection is the first collection of finished products from The Recycle Studio (TRS), a materials-design company based in Costa Rica, in collaboration with MXNBG.

At TRS, we work towards a circular economy production model. All our products are made with 100% recycled and recyclable waste plastics and our workshop fully operates on renewable energy.

Within an environment where there is constant humidity, our five-piece bathroom collection celebrates the unique advantages of plastic in a stylish and playful way. Designed to optimise the use of the sheet material from which they are made, the collection is a testament to minimising waste through good design.

MATERIAL COLLECTION 2023

We can create the bathroom collection from one of the other materials we design. You can read more about what's available and how our collections work on our website. Minimum quantities applies depending on product.

Please note that the above materials are part of our 2023 collection and some designs are subject to availability. Materials can only be guaranteed once ordered. Please contact us to discuss availability before you design to avoid any disappointment.
